

The Rusach Advantages

Design, Engineering & Manufacturing

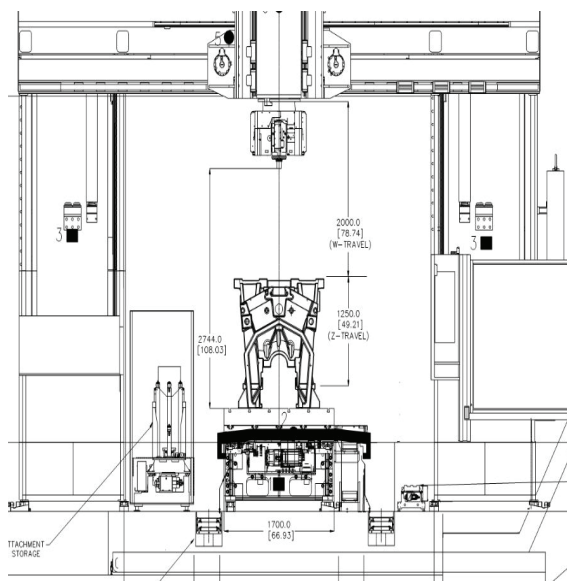

At **Rusach International** our Design, Engineering & Manufacturing capabilities are what stands us out from other Rotary Table & Pallet Systems manufacturers. We can build rotary tables up to **8 Meters** in diameter. We specialize in **High Accuracy Production Style** Rotary Tables & Pallet Shuttle/Storage Systems.

We can Design, Engineer & Manufacture a system based on your application. We can also just manufacture based from your designs.

Rusach International systems are not proprietary and therefore can be integrated into any machine, control system or application. We do not believe in “Locking” a customer down!

Our Engineering and Technical people at **Rusach International** have the Experience, Background and Training, to solve your challenges!
