

Rusach International Product Line

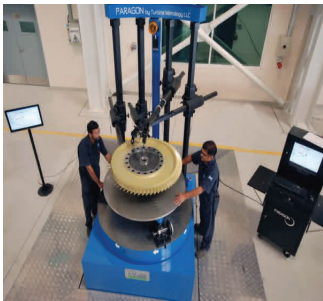

ROTARY TABLES (to 8 Meters in diameter)

- **2/DMT-SERIES** NC Rotary Tables with Direct Drive
- **2-SERIES** Horizontal NC Rotary Tables
- **2/DMT & 3/DMT Series** Horizontal & Tilting Tables
- **3/DS-Series** NC Rotary Table & Tilting Tables
- **5-SERIES** Vertical NC Rotary Tables
- **6-SERIES** Rotary Traveling Tables

Complete Line
of small stand-
ard tables!

INSPECTION, TESTING, ASSEMBLY & METROLOGY TABLES

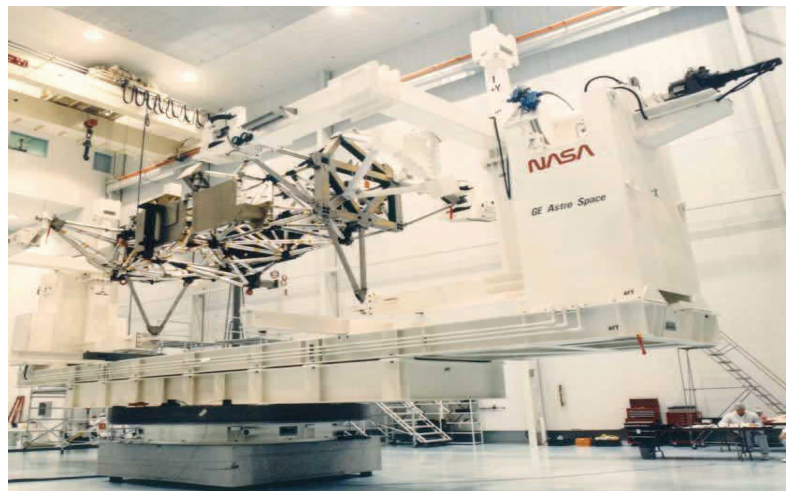

- Full line of Tables & Capabilities to handle any Inspection, Testing, Assembly or Metrology requirement. Standard Tables, Modified Tables or Tables Designed specifically for your application. Precision Spin, High Accuracy Angular Indexing, Precision Indexing, Air Bearing, Tilting or Direct Drive.

Rusach Specializes in “BIG”

V16 Rotary Tilting Table

NASA Satellite Assembly Table

Every Challenge Has A Solution

Rusach International Product Line

Metrology Systems

Paragon Circular Geometry Inspection System with software features that keep this program leading the industry in terms of accuracies, ease of use, reliability and costs.

BalancePoint Automatic, Semi- Automatic or Manual weighing as part of a balancing program that quickly determines the optimum rotor location for an unlimited number of compressor or turbine blades in a set.

TrueBuild Uses data derived from physical measurements to align the axis of the assembled components, track the assemblies rotational axis and account for mass distributions to maximize assembly straightness and out of balance forces.

Pallet Shuttle Systems

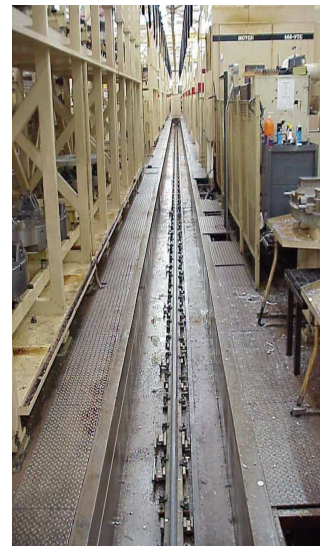

Designed, Engineered,
Manufactured

➤ **8-SERIES** Automatic Pallet Shuttle System

➤ **8-SERIES** Automatic Pallet Changers & FMS
